Legends, Notes and Schedules per Plans and Specifications

As Applicable

Definition of Terms

Contractor and/or Subcontractor shall mean Scope Package Bidder.
Construction Manager (CM) shall mean Lowry Construction Services, Inc.
Owner shall mean Pryor Public Schools.
Architect shall mean The Stacy Group.
Project Schedule, Schedule, Phasing Plans shall mean Construction Schedule.

LCS Clarifications: 01, 02, 03, 04

ADDENDA: 01

SCOPE OF WORK:

Includes, but is not limited to, providing all the necessary labor, materials, tools, supplies, supervision, insurance, equipment, scaffolding, hoisting, fees, etc. necessary to provide the **Coiling Counter Doors and Serving Coiling Security Grilles Work for the Pryor Public Schools High School Phase 4**, Pryor, Oklahoma in accordance with the Contract Documents. It is further understood and agreed that this Subcontract also includes the furnishing and installation of the below listed items regardless of whether or not they are in the listed specification section(s) or any other specification section(s) or shown on the plans. This scope listing is to be used as a guideline and should not be considered as an all-inclusive list of items required to provide a complete scope of work under this proposal. Items not specifically mentioned but are normally performed by members of the Trade's industry are included as part the Subcontractor's Scope of Work. Drawing and detail references are provided for reference only and are not to be considered as all-inclusive of Contract Documents for the particular items referenced. **(Please note: The word "provide" when used herein shall mean furnish and install completely, including all costs for labor, materials, equipment, hoisting, layout, scaffolding, ladders, staging, tools, rigging, subcontract, consultant, third-party, and any other appurtenances necessary to complete the Work".)**

1. Provide all Coiling Counter Doors, and Serving Coiling Security Grilles, complete as indicated in the Contract Documents. All work to be furnished and installed with materials as indicated, specified, in accordance with best practice, and as required to make a complete system.
2. Coordinate pre-installation conference with CM, Owner, and Architect before start of work.
3. Work must be performed accordance with the Construction Schedule. Contractor shall anticipate and understand when their scope of work is to be performed and include all weather protective means as required.
4. Contractor shall include daily cleanup of work. Temporary labor will be provided at the Contractor's expense if failure to provide daily cleanup is documented by written notice to correct.
5. Coordinate all work with other contractors, utility companies/agencies and CM as required.
6. Protect all items to remain.

GENERAL ITEMS

7. Provide all mobilizations, as may be required, for work of this package. Include separate mobilizations / demobilizations as required by the Project Schedule and Phasing Plans. Contractor shall understand when their scope of work is to be performed and include all weather protective means as required.
8. Field verify dimensions as required.
9. All references to General Contractor and/or Contractor in the Plans and Specifications shall be changed to Subcontractor.
10. Contractor shall provide traffic control if needed for this scope.
11. Contractor shall include any Dewatering as necessary to perform the Scope of Work.
12. Provide video recording of all existing site and building conditions before start of work.

13. Contractor is responsible for maintaining a clean and safe working environment in accordance with applicable codes, regulations and OSHA standards.
14. Contractor shall provide a final clean of all materials and equipment under this scope.
15. Monitor and prevent all track-out. Contractor is responsible for any track-out created by employees, subcontractor or vendors of said Contractor. Track-outs identified by Owner and/or CM will be addressed and rectified by Contractor within 24 hours of notification.
16. Contractor shall provide all Delegated Design submittals as required. Provide all shop drawings, product data, samples, mock-ups and other pertinent submittals for the work of this Subcontract. Provide engineering and printing costs for all shop drawings, calculations, designs, coordination drawings, and product submittals for architect approval as required to properly coordinate the work included in this Subcontract with other trades. Include costs for revising and resubmitting shop/coordination drawings as needed. Promptly provide all Closeouts and extra materials as indicated.
17. All work shall be performed using acceptable means and methods in accordance with current Best Management Practices and requirements of LCS.
18. Subcontractor will assist LCS with providing material quantities and cost breakdowns as required for the Owner's and LCS's budget requirements.
19. Contractor shall provide a complete installation that complies with all ADA requirements, applicable codes, ordinances and satisfying all Authorities Having Jurisdiction.
20. Subcontractor is required to control Dust and Airborne Contaminants. No waste materials or debris shall be allowed to accumulate.
21. Contractor is responsible for all overtime required to comply with, meet and maintain the Construction Schedule.
22. Provide coordination, assistance, and necessary access for the Owner's furnished Testing Laboratory, including notification, obtaining samples and data gathering as required for scope of work. Costs for retesting due to failed tests and/or for Subcontractor's unpreparedness, will be paid by this Subcontractor.
23. Contractor shall coordinate all material deliveries with the Construction Manager and shall have a representative and sufficient workforce onsite to receive, move and store all deliveries of materials under the scope of work of this bid package.

Legends, Notes and Schedules per Plans and Specifications

As Applicable

Definition of Terms

Contractor and/or Subcontractor shall mean Scope Package Bidder.
Construction Manager (CM) shall mean Lowry Construction Services, Inc.
Owner shall mean Pryor Public Schools.
Architect shall mean The Stacy Group.
Project Schedule, Schedule, Phasing Plans shall mean Construction Schedule.

LCS Clarifications: 01, 02, 03, 04

ADDENDA: 01

SCOPE OF WORK:

Includes, but is not limited to, providing all the necessary labor, materials, tools, supplies, supervision, insurance, equipment, scaffolding, hoisting, fees, etc. necessary to provide the **Accordion Folding Fire Door Work for the Pryor Public Schools High School Phase 4**, Pryor, Oklahoma in accordance with the Contract Documents. It is further understood and agreed that this Subcontract also includes the furnishing and installation of the below listed items regardless of whether or not they are in the listed specification section(s) or any other specification section(s) or shown on the plans. This scope listing is to be used as a guideline and should not be considered as an all-inclusive list of items required to provide a complete scope of work under this proposal. Items not specifically mentioned but are normally performed by members of the Trade's industry are included as part the Subcontractor's Scope of Work. Drawing and detail references are provided for reference only and are not to be considered as all-inclusive of Contract Documents for the particular items referenced. **(Please note: The word "provide" when used herein shall mean furnish and install completely, including all costs for labor, materials, equipment, hoisting, layout, scaffolding, ladders, staging, tools, rigging, subcontract, consultant, third-party, and any other appurtenances necessary to complete the Work".)**

1. Provide all Accordion Folding Fire Doors complete as indicated in the Contract Documents. All work to be furnished and installed with materials as indicated, specified, in accordance with best practice, and as required to make a complete system.
2. Coordinate pre-installation conference with CM, Owner, and Architect before start of work.
3. Work must be performed accordance with the Construction Schedule. Contractor shall anticipate and understand when their scope of work is to be performed and include all weather protective means as required.
4. Contractor shall include daily cleanup of work. Temporary labor will be provided at the Contractor's expense if failure to provide daily cleanup is documented by written notice to correct.
5. Coordinate all work with other contractors, utility companies/agencies and CM as required.
6. Protect all items to remain.

GENERAL ITEMS

7. Provide all mobilizations, as may be required, for work of this package. Include separate mobilizations / demobilizations as required by the Project Schedule and Phasing Plans. Contractor shall understand when their scope of work is to be performed and include all weather protective means as required.
8. Field verify dimensions as required.
9. All references to General Contractor and/or Contractor in the Plans and Specifications shall be changed to Subcontractor.
10. Contractor shall provide traffic control if needed for this scope.
11. Contractor shall include any Dewatering as necessary to perform the Scope of Work.
12. Provide video recording of all existing site and building conditions before start of work.

13. Contractor is responsible for maintaining a clean and safe working environment in accordance with applicable codes, regulations and OSHA standards.
14. Contractor shall provide a final clean of all materials and equipment under this scope.
15. Monitor and prevent all track-out. Contractor is responsible for any track-out created by employees, subcontractor or vendors of said Contractor. Track-outs identified by Owner and/or CM will be addressed and rectified by Contractor within 24 hours of notification.
16. Contractor shall provide all Delegated Design submittals as required. Provide all shop drawings, product data, samples, mock-ups and other pertinent submittals for the work of this Subcontract. Provide engineering and printing costs for all shop drawings, calculations, designs, coordination drawings, and product submittals for architect approval as required to properly coordinate the work included in this Subcontract with other trades. Include costs for revising and resubmitting shop/coordination drawings as needed. Promptly provide all Closeouts and extra materials as indicated.
17. All work shall be performed using acceptable means and methods in accordance with current Best Management Practices and requirements of LCS.
18. Subcontractor will assist LCS with providing material quantities and cost breakdowns as required for the Owner's and LCS's budget requirements.
19. Contractor shall provide a complete installation that complies with all ADA requirements, applicable codes, ordinances and satisfying all Authorities Having Jurisdiction.
20. Subcontractor is required to control Dust and Airborne Contaminants. No waste materials or debris shall be allowed to accumulate.
21. Contractor is responsible for all overtime required to comply with, meet and maintain the Construction Schedule.
22. Provide coordination, assistance, and necessary access for the Owner's furnished Testing Laboratory, including notification, obtaining samples and data gathering as required for scope of work. Costs for retesting due to failed tests and/or for Subcontractor's unpreparedness, will be paid by this Subcontractor.
23. Contractor shall coordinate all material deliveries with the Construction Manager and shall have a representative and sufficient workforce onsite to receive, move and store all deliveries of materials under the scope of work of this bid package.

Exclusions:

1. Final connection to fire alarm, by electrical contractor.
